

VINYL WRAPPED COMFORT CARTS

For any steel M-Series or aluminum A-Series cart

Comfort carts can provide tangible and psychological benefits to patients by distributing items for fun, relaxation and mental health rather than clinical needs.

How does this work?

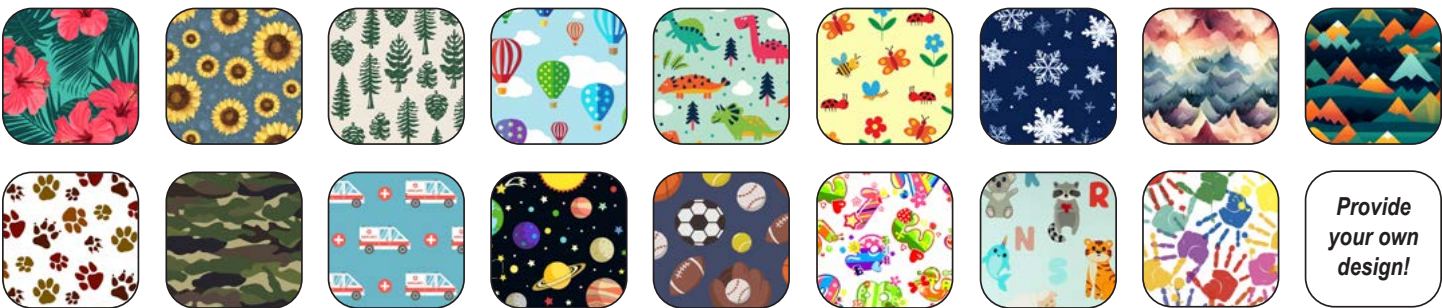

- Purchase any M-Series or A-Series medical cart as you normally would.
- Request the vinyl wrap of your choice from the selections below (or you can supply your own graphic or logo, see below for ordering details)
- You have two options, a full wrap or a half wrap. The half wrap leaves the drawers unwrapped so you can see the paint color. The full wrap covers the cart body and the drawers.
- Your completed cart will have the same great functionality of a standard cart, but will have a fun, feel-good or fancy style that puts patients at ease.

Want something different than one of our pre-selected designs?

Supply your own image!

Our cart wraps can use repeatable patterns, like those shown below, or single images like hospital logos, photographs or virtually any other image with a high enough resolution*. Call us to speak about customizing a cart to your specifications.

*Scalable vector files (.ai or .eps) work best, pixel based images (.psd, .tif, etc) may be acceptable if they have a high enough digital resolution (300 dpi minimum).
