

SPECIALLY MADE FOR MAGNETIC RESONANCE IMAGING SUITES

Harloff is the only US based manufacturer to offer MR-Conditional Safe carts in both 1.5 and 3.0 Tesla magnetic resonance environments. Our carts meet the American Society for Testing and Materials (ASTM) International Designation of MR-Conditional for use in a 3 Tesla or less environment of the Magnetic Resonance Imaging Suite (testing date January 13, 2010).

Our carts are built primarily of non-ferrous aluminum, plastic and stainless steel for safe daily use in highly magnetic environments. We also offer Anesthesia and Emergency packages, multiple drawer configurations and extra MR-Conditional accessories.

MRI-SAFE MED CARTS

- Meets American Society for Testing and Materials (ASTM) International, Designation: F2503-05 definition of "MR-Conditional"
- Cabinet painted gloss white with MRI identification sticker applied
- Low-ferrous, ball-bearing, full extension drawer slides
- Low-ferrous 5" sealed ball-bearing casters
- Protective corner bumpers
- Painted aluminum pull-out shelf
- Antimicrobial plastic top with integrated push handles, removable
- Durable, heat sealed powder coat finish

Engineered and
Manufactured in the U.S.

MR7K

MR-CONDITIONAL CARTS

MR6K

One of our best selling MRI carts, this model features six storage drawers, corner bumpers, low-ferrous ball-bearing casters and low-ferrous drawer slides. Like all of our MRI-Safe carts, the MR6K is constructed only from non-magnetic or "weakly magnetic" materials.

Find more MRI Safe carts on page 76

MR6K-MAN

Has all of the same great features of the MR6K but with the addition of side rails, 3-tier back rails and full drawer tray organizers.

MR7K-MAN

These two seven drawer MRI carts include BEST® brand locks on each cabinet with 2 keys, a replaceable plastic top and several accessories ideal for anesthesia procedures. The larger MR7K-MAN includes a pull-out shelf, the narrow version does not.

MRN7K-MAN

MR9B-PED

This MR-Conditional pediatric cart is specifically designed for treating pediatric emergencies by using a multi-colored drawer labeling system comparable to the Broselow color coding method. Each drawer has it's own breakaway locking bar and plastic seal.

View details for the breakaway and key locking options on page 88

MR6B-EMG

Has all of the same great features of the MR6B but with the addition of an IV pole, cardiac board, oxygen tank holder, utility hooks and full drawer tray organizers making this ideal for use as an emergency cart.

MRI-SAFE ACCESSORIES

Most MRI-Safe accessories can be located in the Small Cart Accessories section on pages 62-65.

MRI-Safe version available

| Item # | Description |

| 68620-P1 | MRI-Safe Adjustable Dividers w/Tray for Narrow Carts, 3 Long, 3 Short |

MALIGNANT HYPERTHERMIA CARTS

Meet AANA and MHAUS recommendations to have the right supplies organized and quickly available. Harloff's MH Carts provide portable storage with easy access.

Signs of malignant hyperthermia are often not apparent until anesthesia drugs have already been administered, and this condition can be fatal if not treated promptly. Medication and ice packs are used in the immediate treatment of malignant hyperthermia, so having a dedicated MH cart nearby significantly improves medical response time.

Engineered and
Manufactured in the U.S.

MH5200B-AC

Includes a built-in 2.4 cubic feet Accucold® laboratory grade refrigerator for storage of cold saline solutions and regular insulin. Comes with a breakaway lock and two drawers. Accessories include a waste container, two chart/document holders and a large wire basket.

STORE YOUR MEDICATIONS AND INSULIN IN A MEDICAL-GRADE REFRIGERATOR

Harloff malignant hyperthermia carts are the perfect solution for holding your Dantrolene and other medical supplies while keeping insulin, saline and ice packs cold inside a lab-quality Follett® or Accucold® refrigerator. MH carts are offered with two different sizes of refrigerator along with multiple drawer configuration options. Harloff offers a wide range of accessory options to further equip your MH cart, or purchase one of our Malignant Hyperthermia cart packages featuring our most common accessories.

MH4216K-AC

Equipped with an Accucold® 1.0 cubic feet medical-grade refrigerator, two storage drawers are available for Dantrolene and other supplies.

MDS2430B02-MH1

We combined an M-Series body with a 1.0 cubic feet Accucold® refrigerator. Includes most M-Series features such as premium casters and bumpers, pre-drilled accessory mounting holes and full extension drawer slides.

MALIGNANT HYPERTHERMIA CARTS

FOLLETT MEDICAL GRADE REFRIGERATORS

Buy your MH cart with a Follett® REF1 or REF2 refrigerator, known within the medical field for quality and reliability.

- Stainless steel construction.
- Heavy-duty, quiet compressor
- Uses non-CFC, environmentally responsible R134a refrigerant
- Cylinder door lock supports JC standard for medication storage
- Field-reversible door
- Epoxy coated wire shelves, adjustable in 1/2" increments
- Exterior LED user-programmable display shows temp, alarms and more

MH5200B

Our most popular selling MH cart, the MH5200B combines the perfect balance of cold storage with two drawers of top storage. Comes with the accessories you need to create a fully equipped MH cart.

MH5216K

Our standard cart features a 1.8 cubic feet Follett® medical-grade refrigerator. This key locking model features a smaller 1.0 cubic feet Follett® refrigerator to offer more top drawer space. Other features include a waste container with mounting brackets, two large chart/document holders and a large wire basket.

MH5300B

Features three top drawers with a break-away bar for quick access to both room temperature and refrigerated medications, along with accessories.

MH5100B

Our shortest Malignant Hyperthermia cart has a single top drawer with breakaway bar, ample refrigerated storage, a full complement of accessories and an antimicrobial plastic top.

MH4300K

For those who don't need accessories or wish to purchase their own accessories separately, this three drawer, key locking cart is the lean version of our MH carts.

SPECIALTY CARTS

Medical facilities may need specialized equipment to effectively serve within their particular area of patient care, and having a specialty cart or cabinet to assist with this treatment is paramount. Whether you need a cast cart for patients with broken bones, a phlebotomy cart for IV and epidural procedures, a storage cart for your IntraOcular lens boxes, a pediatric cart for your children's area or something custom made for another area of specialization, Harloff has you covered.

Engineered and
Manufactured in the U.S.

SPECIALIZED CARTS FOR UNIQUE MEDICAL APPLICATIONS

Most Harloff specialty carts were developed because of customer requests. When a customer requires a specialized solution and they trust in Harloff's unparalleled ability to make custom and unique projects, great things can happen! We are proud to offer these "niche" carts to help fill unique needs in the medical community. Perhaps your idea will become the next specialty cart to help other professionals just like you!

6035-TC

ORTHOPEDIC CAST CARTS

6035

This popular 8-drawer cart includes a stainless steel folding side shelf, stainless steel side storage cabinet, swivel tourniquet/pump pole and scissors cable.

6025

This version of the 6035 has a cabinet and drawers made of stainless steel rather than heat sealed powder coat steel. Multiple locking options are available.

STAINLESS
STEEL

ALL HARLOFF CAST CARTS FEATURE:

- Stainless steel bucket holder with vinyl mat
- 24" stainless steel ruler mounted on top of cart

- Aluminum towel bar
- Internal drawer dividers
- Corner bumpers
- 5" ball-bearing casters, all full swivel - one tracking, one with brake
- Ball-bearing full extension drawer slides
- Latex free construction

**View specialty
cart locking options
on page 88**

6035-TC

Our top selling cast cart, this model is just like the 6035 cart but with a top compartment for extra storage.

6025-TC

This stainless steel cart is just like the 6025 cart but with a Sand colored aluminum top compartment for extra storage.

STAINLESS
STEEL

6030

Designed in conjunction with orthopedic technicians to maximize functionality, our cast carts have one 3-inch drawer with a black vinyl mat, five 3-inch drawers with drawer dividers and two 6-inch drawers with drawer dividers.

This basic cast cart has a bucket holder, towel bar and mounted ruler but does not come with top shelving or a pole.

INTRAOCCULAR LENS CARTS AND SUTURE CARTS

MS-IOL840

This version holds up to 840 IOL boxes and is less than 41" tall.

For larger, non-standard sized IOL boxes we build custom cabinets that can meet your exact specs.

MS-IOL1260

Compatible with multiple IntraOcular lens box sizes and brands including Alcon, Bausch and Lomb, Rayner and Abbot Medical Optics, this cart provides mobile storage for up to 1,260 boxes. The six pull-out drawer shelves allow for quick visual scans of the types and

powers of each IOL box kept organized with six adjustable dividers per drawer. Industry best 5" quiet rolling Tente® casters improve mobility and lenses are secured with a standard key lock.

MS-SUTURE2-K

This suture cart has clear acrylic doors designed for operating rooms that require secure but visible storage and transport of sutures. It features five adjustable shelves and a bottom pass through compartment which can hold several sizes of Harloff trays.

Comes with a key lock or an e-lock

Also available: The MS-IOL1092 and MS-IOL1470 models are designed to include fewer shelves with more space between each shelf to accommodate larger IOL boxes such as those from Johnson & Johnson.

MS-IOL1680

This high volume IOL cart is the equivalent size of a full height two column MedStor Max cabinet. It features eight drawers with full extension drawer slides to hold up to 1,680 IOL boxes. This model can come equipped with optional lighting, a dimmable recessed LED that turns on automatically when doors are open. This is a perfect solution for large eye surgery centers that do 30-50 eyes per day.

CUSTOM CARTS

Many of the "specialty" carts that Harloff carries (IOL carts, phlebotomy carts, etc) were created because of customer requests. No one understands what innovations the medical industry needs better than those who are working daily in patient care. If you have an idea that you want to see materialize into a cart in the field, Harloff can help you. We have a full-time engineering staff that can assist you, and Harloff's manufacturing team gives us an unparalleled ability to do custom and unique projects. Harloff has helped to pioneer small cart innovations such as bayonet mounted ball-bearing drawer slides, fully modular customizable designs and carts shipped fully assembled. See page 44 for details.
